Phoenix Award Bios V6.00pg Windows 10 Graphics Driver

I also got a exe File, and some 160 When i click that exe file nothing happens.. 1 2600 (WinXP Retail) Date 2010-03-04 Time 09:01 -----[BIOS]----- BIOS Properties: BIOS Type Award Award BIOS Type Phoenix - AwardBIOS v6.. 20 405 Homepage Report Type Quick Report Computer CRYSTAL_XP Generator crystal Operating System Microsoft Windows XP Professional 5.. 00PG Award BIOS Message P4M80-M4 (4M80M609 BF) System BIOS Date 06/09/07 Video BIOS Date 08/15/06 BIOS Manufacturer: Company Name Phoenix Technologies Ltd.. Last file i got is called How To Flash the BIOS doc Do i have to read that file in order to update bios?? I dont understand English very well, is FLASHING bios updating BIOS?• 1 Answer SOURCE: Version EVEREST v2.. Im getting a new nVidia gpu, and + my system is unstable when oc so i really need this update.. After you upgrade your computer to Windows 10, if your Award BIOS / Motherboard Drivers.. Driver, including Windows 10 Award Modular BIOS v6 00PG Driver Hi, I was looking to update my motherboard drivers and there i found update for my BIOS.

It is possible that your BIOS / Motherboard driver is not compatible with the newer version of Windows.. If you want help, you must identify your motherboard You can help whit a diagnostics and information system software like EVEREST Home Edition (it is a free).. What you need is the maker and model of motherboard that you have This will be written on the board itself (usually around the center), so if you open the case you can read it.. My mobo is MSi K8N NEO4 Platinum [MS-7125] 1 0 I downloaded update for BIOS, and i got 4 files: 7125 - Text document that says what is that update doing.. It says: This BIOS fixes the following problem of the previous version: - Improve compatibility problem with nVidia graphic card - Improve stability problem when doing overclock behavior.

Posted on Oct 18, 2009 ' AwardBIOS v6 00PG' is not enough information to find a BIOS upgrade.. This program provide you that will id mosthardware onboard a MB You can download here: Run the program and then: Click on Computer Click on Summary Right hand window (hardware) if the text is BLUE this is a link to the web site for that particular hardware.. After you upgrade your computer to Windows 10, if your Award BIOS / Motherboard Drivers are not working, you can fix the problem by updating the drivers.. If you have additional questions or need further help, please post a SUMMARY report from Everest.. Product Information BIOS Upgrades Posted on Mar 04, 2010 • 84 Answers SOURCE: Phoenix is a BIOS manifacteur, not a motherboard.
